EMAIL ADDRESS STRUCTURE

johnsmith@example.com

MAILBOX NAME   DOMAIN

Getting into Projects With **GitHub**

```
$> git init
$> git branch
$> git remote
$> git tag
```

Software Development In **GitHub** with **Associates**

Let's Do Some Brainstorming

* automated web scraping using python

* react app like pokedex

* set up and build a vpn server

* GitHub - profile visit counter

* JUCOM Team members app

* qrcp: Transfer files between desktop and phone over WiFi using QR code

* Building a telegram/discord bot that provides club info

- Local/Global Programs
- Learning Platforms
- Speaking Engagements
- Networking With Like-minded peers

That's it for today!
